

ready community | Financials

Ready Community Financials offers a portfolio of financial tools delivered through a simple and highly engaging user interface. The application enables the efficient management of transactions, aggregation of information, and support for the real-time management of your organisation's finances.

The solution is a cloud-based financial, accounting and business management system that is accessible from everywhere, anytime. Nimble enough for small Local Governments and powerful enough for larger Local Governments, Ready Community Financials is easy to implement, fast to configure and simple to use.

Want to learn more? Visit readycommunity.io/Financials

With end-to-end integration, you can efficiently manage your general ledger, payables, receivables, inventory, analytical accounting, fixed assets and cash flow, as well as perform bank reconciliations and collections. You can also manage your financial processes across multiple currencies, locations or companies.

High levels of cyber-security, business continuity, audit control, organisational governance and workflow are built in to ensure a seamless user experience. Simple to learn and use, Ready Community Financials works with your existing technology, scales as you grow, and delivers long term value.

Key Features

Simple and engaging

User-friendly interface designed to create efficiencies

Full suite of accounting tools

Including the core General ledger, Accounts Payable and Receivable, and Project Accounting

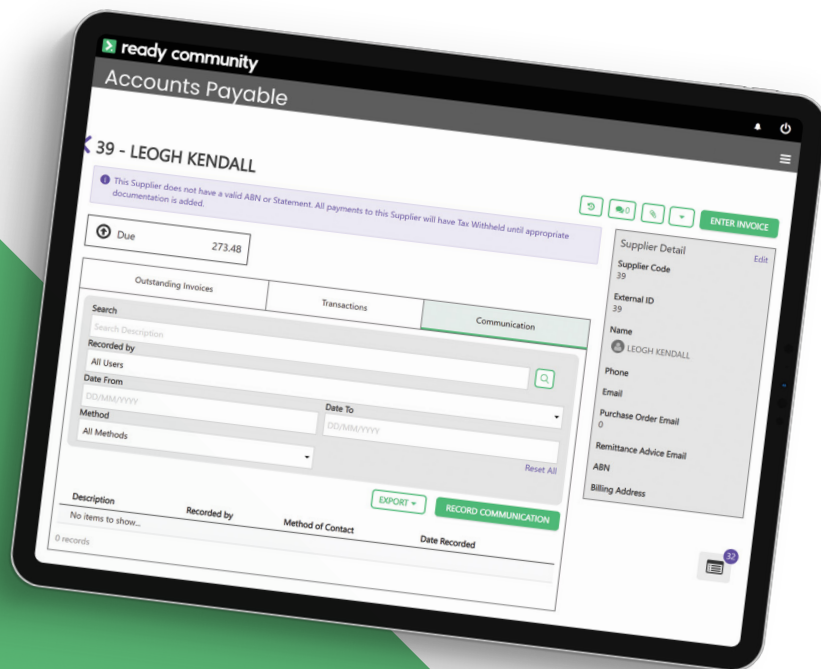

Seamless integration

With Ready Community Payroll, Contacts and Content

Simple automations
